DATA SCIENCE PATHWAY

TO UCR FELLOWSHIP

ABOUT THE PROGRAM

Data Science encompasses preparing data for analysis, cleansing, aggregating, manipulating the data and perform advanced data analysis. The wealth of data being collected and stored by the technologies can bring transformative benefits to organizations and societies around the world, but only if we can interpret it. That's where data science comes in. Data is the bedrock of innovation, but its value comes from the information data scientists can glean from it, and then act upon.

SKILLS

- Statistics
- Python Programming
- Machine Learning
- Database
- Research

PATHWAY TO UCR DATA SCIENCE DEGREE

A.S. in Data Science:
Courses available in 2024

Data Analytics Certificate:
Courses available in 2024

SUMMER FELLOWSHIP PROGRAM

8 Weeks in Summer 2024

Hands-On Learning

Real Project Experiences

Real-World Application

\$5000 Stipend

Stipend for 8-week Fellowship

Network with Mentors and Professionals

Access to Mentors and Professionals

APPLY AT

<https://tinyurl.com/Apply-Here-2024>

VIRTUAL INFORMATION SESSION

Friday, March 29
at 12:30 PM - 1:30 PM

<https://tinyurl.com/DSInfoRegister2024>
